Zaragoza Central School ELEMENTARY

2006 - 2012

EXPERTISE

- Backend Python Flask Framework
- MySQL Database Management
- Web version control using Github
- Printer Troubleshooting
- PC Troubleshooting including server mapping

PROFILE

I'm a backend developer skilled in Python Flask, MySQL database management, and GitHub version control. I also have hands-on experience troubleshooting printers and PCs, including server mapping. Passionate about problem-solving, I ensure efficient systems and seamless collaboration, always striving for optimized performance in both software and hardware environments.
